
PRIVACY POLICY

WE BELIEVE YOUR MEMBERS' PRIVACY IS IMPORTANT.

The member list will not be sold or rented by Vision America.

Only percentages of the church members, not individual names, are given in the report.

*No one other than the Pastor or approved church leader is given the church member report. Your church member data will be matched to public voting and public registration information to help provide you, as a Pastor, accurate information to support your efforts in Christian involvement. The information we ask you to include is the member's full legal name and mailing address. Information that is helpful and increases the percentage of matching files to the public registration and voting history are: DOB, age, gender, spouse, family member names, maiden name, other mailing addresses, phone numbers and email address. We use industry standard data collection methodologies to securely collect, process, transmit and store your sensitive information. Our purpose is to protect member information while providing information to Pastors about their church that can be used to help Pastors. Any questions regarding this privacy policy or the 20:28 Pastors Outreach should be directed via email to: info@2028Pastors.com
